- 8/8/22 DA project was chosen (ChangeEco Climate Change Instagram page)
- 12/8/22 Project Pitch was written up and submitted.
- 17/8/22 First Tweet was uploaded for my online persona project. Upload was (a video from 1985, Carl Sagan testifying before congress on climate change), using the #BCM206 hashtag.
- 22/8/22 First Instagram post was created and uploaded onto the ChangeEco instagram page.
- 22/8/22 2 Twitter uploads were published online, one being my instagram post and another highlighting (the effects of global warming on our glaciers, especially the ones in Germany which experts believe will be soon gone.
- 26/8/22 Second Instagram post was created and uploaded onto ChangeEco, 'Record-breaking heat wave in Europe will be the norm by 2035', sourced via CNN Climate.
- 26/8/22 Tweet uploaded detailing my ChangeEco upload of the European Summer heat wave.
- 29/8/22 Instagram account 'deerandtheantelope' posted a story on their page and tagged ChangeEco. Repost was made on the ChangeEco page.
- 29/8/22 Third upload was created and uploaded onto ChangeEco, Floods in Pakistan.
- 4/9/22 Feedback from DA pitch, decided i'm going to use relevant hashtags for my
  posts to gain more attention from audience and potential audience users. Use of
  stories to give followers the ability to see my posts if they haven't already in their
  Instagram feed. Shares are increasing by each upload which will help with my
  audience reach.
- 12/9/22 After conducting external research on how to best "interact and grow my DA platform via Instagram, as well as connect with other audiences and users" I have decided to upload constantly every monday, wednesday and once on the weekend,

(3 times a week). This will give my account the extra online activity it needs to help grow the page to other users who I haven't connected with yet.
